<Marcooo> Whgat were you exp[ecting when I said I was taking 300mg of DXM

<cocokins> slight dissociation and visuals

<Marcooo> I got no visuals whatsoever

<sconezy> slight drunkenness

<cocokins> yea

<cocokins> low dose dxm does feel like being drunk

<sconezy> trippy sedation

<Marcooo> What did I get instead?

<sconezy> you tell me

<xenograft> wait

<xenograft> are you down

<xenograft> now

<xenograft> that wasn't very long

<xenograft> how long is dxm peak

<Marcooo> NO I'm still fucked

<xenograft> lmao

<cocokins>]lol

<Marcooo> I just have a pit stop into sobriety

<cocokins> are you still on cloud 9

<Marcooo> I don't even know where I am in the sky

<Marcooo> It's really weird

<Marcooo> Like I KNOW I;m in my basement

<Marcooo> But I just appear in all these places

<cocokins> you know some people lack the enzyme to process dxm and it ends up being way more potent and an overall different experience

<Marcooo> Is that what happened

<cocokins> possibly

<Marcooo> Did I get a natural grape fruit potentiation

<sconezy> if they lacked that enzyme it would probably affect your life in a lot of other ways too

<sconezy> tto the point where you would already know

<cocokins> not necessarily

<Marcooo> I definitely feel drubnk

<Marcooo> But I also feel glued

<Marcooo> Actually

<Marcooo> I'm a rubber band

<cocokins> dxm acts really atypically for me

<cocokins> like one thing is it causes uncontrollable teeth chattering for me

<Marcooo> If I turn my head it's hard to keep looking that way and it swings back to the front

<cocokins> to the point of days afterwards

<cocokins> and it always lasts 2 times longer then reported times

<cocokins> I usually trip for a day or 2 on dxm

<sconezy> when did you last take DXM

<Marcooo> This is my first evert DXM dose

<cocokins> a few months ago I guess

<cocokins> I don't mind dxm I actually like it alot but I never get my hands on it

<cocokins> i might just buy some from china

<Marcooo> This is by far the most intense experience I ever got on anything

<Marcooo> Holy christ

<Marcooo> 300mg of DXM? jesus

<cocokins> haha 300mg is nothing

<Marcooo> I know

<sconezy> well you need to take it slow then

<Marcooo> Yeah no shit

<sconezy> when trying other substances

<cocokins> yea I can't imagine you with psychedelics holy fuck

<cocokins> you better go easy

<xenograft> maybe he'll react differently

<xenograft> who the fuck knows

<cocokins> perhaps

<Marcooo> I mainly did it for the visuals and such but I got something way better

<xenograft> i wouldn't start with over 150ug of LSD if you take it

<Marcooo> Imo it was worth it

<Marcooo> The endless scratch and demon possession

<sconezy> why are you talking about it in the past tense

<xenograft> yeah

<xenograft> wtf

<Marcooo> Oh shit

<Marcooo> That's right

<xenograft> "drugs = itch" - Marco

<cocokins> hahaha the ride isn't over yet

<Marcooo> I'm still tripping

<cocokins> > trip so hard you forget your tripping

<cocokins> congrats marco

<Marcooo> What do I win

<cocokins> I'm giving you an award on the wiki :3

<Marcooo> Yay

<cocokins> perhaps

<cocokins> unspeakable horrors seems appropriate

<sconezy> give him psyduck

<sconezy> because he freaked out

<xannykins> lol ive donen that before

<cocokins> lolol does psyduck freak out?

<sconezy> yeah

<xannykins> where ive looked at a trip buddy and been like

<sconezy> look at him

<cocokins> i thought hes just really really concentrated

<xannykins> "yo remember that time i was tripping so hard i did X"

<xannykins> and they would be like

<xannykins> > yeah

<xannykins> > that was 10 minutes ago

<xannykins> > ur still tripping

<cocokins> lmao

<Marcooo> Hey that was me

<Marcooo> Actually

<Marcooo> That IS me

<xenograft> there u go

<Marcooo> I feel like I'm doing a backflip

<xenograft> don't try

<Marcooo> My mouth still tastes like dentist

<xenograft> to actually do one

<cocokins> why not

<cocokins> are they hard to do

<Marcooo> Because I will die coco

<sconezy> backflips are dangerous

<cocokins> they are?

<Marcooo> A dead Marcoo is not a good Marcoo

<sconezy> of course they are

<cocokins> how do you back flip

<sconezy> you could land on your neck if you dont do it right

<Marcooo> If I land on my head I can break my neck or spine

<xenograft> you jump backwards

<Marcooo> I know this

<xenograft> and

<xenograft> swing your neck

<xenograft> back

<cocokins> that sounds difficult

<xenograft> it's weird idk

<xannykins> um

<xannykins> xenograft:

<xannykins> that is not

<xenograft> LOL

<xannykins> how you do a backflip

<xenograft> I'VE NEVER DONE ONE

<cocokins> hahaha

<xannykins> thats how you break your neck

<xenograft> WHAT DO I KNOW

<xannykins> lmao

<xannykins> to do a backflip cocokins you try and jump as high as possible

<cocokins> how do you do one xannykins

<xannykins> preferably straight up

<xannykins> then you tuck

<Marcooo> You know that guys

<xannykins> and youll autommatically rotate

<xannykins> in the air

<cocokins> oh shit

<Marcooo> I think every fuckjing conspiracy theorist got a mad dose of DXM

<xannykins> the backflip

<xannykins> is done

<xannykins> by you swinging your legs up

<cocokins> dat is fucking dank

<xannykins> not snapping yoru neck back

<xenograft> dank

<cocokins> lol whiplash

<cocokins> but yea I

<cocokins> how about a

<cocokins> frontflip

<xannykins> in order to be able to do a backflip
<xannykins> and not eat shit
<Marcooo> Guys
<xannykins> you should be able to jump at least 1/3 of your body height
<Marcooo> Can I be serious for a second
<Marcooo> Hear me out
<Marcooo> Is it possible that I could be a square
<xannykins> ??
<cocokins> backflips are easy off diving boards
<Marcooo> I was looking at my light
<Marcooo> And it sent off white squares
<Marcooo> Am I a white square
<xannykins> why would that make you a white square
<Marcooo> I can see drug breakdowns in my vision
<Marcooo> idk
<cocokins> what
<Marcooo> ldk man
<xannykins> lol
<Marcooo> I see like
<Marcooo> Shit
<cocokins> I've seen shit too man
<xannykins> this seems to me like its your first actual trip Marcooo
<xannykins> trya nd enjoy it
<xenograft> I think a lot of us have seen some shit
<cocokins> yea haha don't overthink it
<Marcooo> DPH had a trip element to it
<xannykins> omg
<cocokins> lol
<xannykins> shut up about dph xD

<xenograft> nah bru you are having short term memory loss rn

<Marcooo> hahaha

<Marcooo> NO but what I mean

<xenograft> and internal hallucinations/settings/scenarios

<Marcooo> Is that DPH got me the visuals

<Marcooo> DXM go tmew the ccognitive

<xannykins> and the visuals

<xenograft> you'll love LSD

<Marcooo> Like that drug breakdown was like thin air object that was super not real

<xannykins> xenograft: i convinced him to do 25i

<xannykins> :3

<xenograft> he'll love that too

<xenograft> hahaha

<xannykins> this nigga is in for a ride

<xannykins> lol

<cocokins> hahaha

<Marcooo> I love you guys more than anything

<Marcooo> smooch

<sconezy> isnt 25i a bit too intense

<cocokins> shit this is off 300mg

<sconezy> most tabs are like 1mg+

<cocokins> meh

<xannykins> sconezy: 1. implying you cant cut it in half

<cocokins> he'll be fine

<Marcooo> Imma reach for the sky

<xannykins> 2. its easy to handle 25i

<cocokins> yea

<sconezy> but no one wants to cut it in half

<xannykins> i do

<xenograft> sconezy

<xannykins> and have

<cocokins> lol

<xannykins> many times

<cocokins> sconezy its not hard

<xenograft> I thought 1mg of 25i was perfect

<cocokins> cut diagonally

<cocokins> protip

<sconezy> most people arent going to want to cut a tab in half for their first trip

<Marcooo> I tasted a mashed potato

<Marcooo> Tasted bland

<xenograft> incredibly immersive, not overly intense

<Marcooo> Made me sad face

<xannykins> lol

<cocokins> but

<xannykins> potatoes literally have no taste

<xannykins> idk what you were expecting Marcooo

<cocokins> 1mg of 25i is kind of a sweetspot

<Marcooo> I don't know either xanny

<xannykins> for yall maybe

<sconezy> potatoes have a lot of taste...

<xenograft> it's a beautiful sweetspot

<Marcooo> I never know what I'm expecting

<xannykins> 1.5mg is my sweet spot

<xannykins> 1mg is also nice

<xannykins> but 1.5mg is tits

<Marcooo> Remember when I said it's good to go in with an idea of what to expect

<Marcooo> I didn't do that today

<cocokins> well I like 2mg personally

<Marcooo> Oh no I didn't;

<cocokins> liked*

<xenograft> I feel like I'd have 8A at 1.5mg

<cocokins> 3mg was nice too

<xannykins> ya xenograft

<xannykins> everytime

<xannykins> its fun

<xenograft> 1mg was level 7

<xannykins> 2mg i didnt find more visually appealing

<xannykins> than 1.5

<cocokins> yea 2mg gave me 8a

<Marcooo> I think I jumped in DXM a bit too fast but hey: I am REALLY enjoying this

<xannykins> just higher body load

<xannykins> but everyone is different

<Marcooo> REally opens my eyes to idk what

<cocokins> kitten land?

<cocokins> roooobootrippin' man

<Marcooo> Iso is a robot

<xannykins> theres definitely a point with 25x where taking more does not increase positive effects

<xannykins> only body load

<xannykins> body*

<cocokins> you should watch that southpark episode where they robotrip

<xenograft> over 2mg of 25c is excessive.

<Marcooo> Even tho my mind is telling me no

<xenograft> imo

<Marcooo> I still think of iso as a robot

<xenograft> 2mg gives me 8A with weed

<Marcooo> Iso the science robot along with yin yang the child murderer

<Marcooo> Great adventures await

<xannykins> wat

<Marcooo> That sounds like a great show

<Marcooo> I should pitch it to netflix

<Marcooo> They'll make it happen

<Viscid> From the topic, I imagine

<Marcooo> Well you missed quite a bit

<Marcooo> I went from a state of mania to complete relaxation

<Marcooo> It was fairly intense

<PJosepherum> marcooo elaborate please

<Marcooo> On what?

<PJosepherum> how the wall appeared

<Marcooo> Oh the wall

<Marcooo> Well it's an actual wall, like it's real but

<Marcooo> I was starring at it and it just became void.. kinda like a k-hole but not exactly

<Marcooo> There was waves of blue going up and down on this black surface which is usually orange

<Marcooo> I look away and bam.. it's back

<Marcooo> But I can't shake off this feeling of blindness..

<Marcooo> I really feel blind

<PJosepherum> i understand. do you recall that if you stare at an object that is not in focus, it is not interpreted correctly by your rendering engine

<PJosepherum> even while sober

<Marcooo> Yeah

<Viscid> I sometimes feel blind when really drunk

<Viscid> I have no memory of visual perception

<PJosepherum> blind spots appear because not enough light, gets to the photoreceptor, or invariance of the frequency might deactivate the receptor

<Marcooo> I see

<Marcooo> Badum tish

<PJosepherum> :D

<Marcooo> But see this is what is interesting right now: there is a CD next to me

<Marcooo> With light reflecting off of it on a wall

<Marcooo> About 4 hours ago the light would make it so the reflection was so opaque

<Marcooo> But now it's really hard to see

<Marcooo> I feel as if I have a layer oif gray over my eyes

<Marcooo> A tiny layer

<Marcooo> Nothing drastic

<Marcooo> I have vibrating vision I think

<PJosepherum> this is image burn

<Marcooo> Huh?

<PJosepherum> so when you focus on light, you are pointing your eyes in the direction of information travelling at the speed of light. this interaction is energetic and the photoreceptor will stay activated for as long as it is charged

<PJosepherum> hence, if you look at the sun, you get a black spot in your field of vision until the receptor probably upregulates again

<Marcooo> Yep

<Marcooo> I feel like taking a drive in GTA san andreas, I'll tell you how it goes in a sec

<Isopropanol> What happend?

<Marcooo> Quick notes: my mind doesn't register speed so if I go at 300km/h in game I feel like I'm going really slow

<Viscid> Isopropanol: We just busted out the furry suits and are about to have sex with one another. Want in?

<Isopropanol> also, xenon seems like a god tier dissociative gas

<Viscid> josikinzz: Oh, is that 'before'?

<PJosepherum> that is now viscid

<Isopropanol> fuck N2O

<PJosepherum> oh sorry the top is now

<PJosepherum> bottom is before

<Viscid> Yeah

<Isopropanol> Xe seems like the next big thing

<Viscid> Other than the dimple, I wouldn't be able to even tell it was the same person

<Isopropanol> I can't remember shit though

<Isopropanol> sconezy

<josikinzz> THANKYOUU

<josikinzz> viscid

<Isopropanol> what shit did I do while I was out

<josikinzz> much facial fat relocation

<Marcooo> Iso

<Viscid> You make a good girl

<Marcooo> I was fucked too

<Marcooo> So you were typing all fucked

<PJosepherum> because, iso, it is such a large atom?

<Isopropanol> You caught the pun

<Isopropanol> Finally

<Isopropanol> I was waiting for someone to get the joke

<Marcooo> Iso I was strongly believing you were a robot cyborg

<Isopropanol> damn

<Marcooo> And then I called you science

<Isopropanol> I was science

<PJosepherum> don't you have scrollbar iso?

<Marcooo> And you might have gone overboard at that point

<PJosepherum> <Isopropanol> aleuins communimcate thriouyg me yhnba dnmy fuinbgers

<Isopropanol> I've become the periodic table, various elements, and now I can add "become science" to my liost of transformations

<PJosepherum> <Isopropanol> whdt is thers i donklt evben whart is goiony g on????

<PJosepherum> Isopropanol> ;lettrs mrph and lse gestlta frms

<Isopropanol> oh yeah

<Isopropanol> the scrollbar

<PJosepherum> <Isopropanol> itd a congbbpirahju

<Marcooo> I thought you were a broken robot and your chip had to be fixed

<Isopropanol> holy shit

<Marcooo> So I felt all bad for you

<PJosepherum> <Marcooo> D:

<PJosepherum> <Isopropanol> eiurial

<PJosepherum> <Isopropanol> eirial

<PJosepherum> <Marcooo> Iso stop you're scaring me

<Isopropanol> I did some shit

<Isopropanol> PJ

<Isopropanol> stop

<PJosepherum> <Isopropanol> I AM SVIENVE!

<Marcooo> Fuck.. when 2 experiences collide...

<PJosepherum> lol

<Marcooo> It wasn't pretty.

<Isopropanol> I bet I had a god-tier trip

<Marcooo> Well Iso

<Isopropanol> And I can't even remember it

<Marcooo> Let's see iof you can remember this

<PJosepherum> sorry i wasn't there apparently to diffuse that :p

<Marcooo> I was talking about how I wanted to murder children

<Isopropanol> Hm

<Isopropanol> no

<Marcooo> Then I said I felt like a child

<Isopropanol> Not ringing a bell

<Marcooo> So you said "Would it be pedophilia if you jacked off" or something

<Isopropanol> hm

<PJosepherum> you acted like a malfunctioning robot and triggered a psychotic episode

<Marcooo> Since I am a 17 year old boy touching a 2 year old mind

<Isopropanol> vaguely

<PJosepherum> iso

<Isopropanol> ja?

<PJosepherum> i dunno, a lot of it is in ~ducth

<PJosepherum> how are you supposedly lucid now after that

<Isopropanol> I'm somewhat blurry

<Isopropanol> like

<Isopropanol> I'm not lucid

<Marcooo> I remember practically everything I said

<Isopropanol> or very aware

<Isopropanol> I'm just...meh

<Marcooo> I remember believing to be possessed by a demon

<Isopropanol> I don't even know any more

<Isopropanol> What has my life come to?

<PJosepherum> guess what

<Isopropanol> what?

<PJosepherum> someone did this to me before

<PJosepherum> remember masked_man_

<Isopropanol> uh

<Isopropanol> idk

<Isopropanol> I'm still hazy

<Isopropanol> a bit

<Isopropanol> like, cloudy

<Isopropanol> I can't think deep at all

<PJosepherum> he triggered a psychotic break in me by (appearing to) act as if he was an AI that was perhaps malfunctioning

<Isopropanol> Damn

<PJosepherum> communicating with me for some reason, in any case

<sconezy> what did he say

<Marcooo> So is that what happened to me

<Isopropanol> Liek dis if you cry every tiem

<Isopropanol> hold on

<Isopropanol> I feel like jerking off

<Isopropanol> brb

<PJosepherum> It's not necessarily scary, just completely shatters your reference frame

<Marcooo> For me there was a thin line between reality and unreal

<Marcooo> Iso acting like that shattered that thin line haha

<Marcooo> I didn't know what was going on, thanks for relaxing me guys\

<PJosepherum> suddenly coherence is lost and your consciousness becomes disorganised. in my case, i tested the situation by asking questions to establish what was happening but was biased towards the false idea because of the paranoia

<Marcooo> There was this conscious part of me going "Do not go overboard he's just fucked up" but the other part of me took over

<Marcooo> All the time I was writing about the sacrifices and the gods I remember my mind being against it but I just couldn't stop

<PJosepherum> it was caused by ethyphenidate. stimulant psychosis. what actually happened was I had misinterpreted him changing his mannerisms as he noticed i was become erratic, as a threat

<PJosepherum> he was talking in a way to try to calm me, but because he changed his attitude, i thought he was not coherent in his behaviour

<PJosepherum> when really i was the one being incoherent

<Marcooo> Fuck man.. You know what? While on that episode of mine I thought you guys were the crazy ones and I was making sense

<Marcooo> Ohoho

<Marcooo> Jesus no

<PJosepherum> sorry, marcooo, so this thing you saw. what makes you think it is a god? what is a god?

<Marcooo> A god is something I can feel protected with- something that will always be with me in the darkest of times

<Isopropanol> god is dead

<Marcooo> It came to me on that very episode

<Isopropanol> I killed it

<Marcooo> It litteraly helped me calm down

<Marcooo> Just by sitting there.. not saying anything.. just in a tunnel of spirals

<Isopropanol> He was found floating somewhere between orion and alpha centuri

<PJosepherum> so you manifested an abstract concept and rendered it in your mind

<PJosepherum> because we are capable of visualisation

<Marcooo> Yeah you could say that

<Marcooo> I doubt I saw it in physical form as an hallucination

<Marcooo> But I did render it with my mind

<PJosepherum> now does this mean that our consciousness is present in the abstract plane, or is the abstract plane present in our consciousness?

<Marcooo> Wow.. I don't know

<Marcooo> Haha.. remember how I kept fightiung to not take DPH while I was itching?

<Marcooo> That was hilarious

<PJosepherum> lol

<PJosepherum> so you appear to be stable again

* gonzobot grabs a AK47 and riddles isopropanol's body with bullets.

<Marcooo> Yeah

<Marcooo> I did

<PJosepherum> that's why he was malfunctioning you see

<Isopropanol> .kill everyone

* gonzobot unleashes the armies of Isengard on everyone.

<sconezy> just finishing him off with an ak45

<sconezy> 47

<Isopropanol> I'm not finished jerking off, asshole

<PJosepherum> isozombanol

<Marcooo> My mind is fairly sober but I have a pretty intense headache right now

<Marcooo> And I feel as if the DXM could cause diarrhea anytime soon.

<PJosepherum> water

<josikinzz> josificus > josifikins > josikkins

<PJosepherum> drink lots

<Marcooo> Mk

<PJosepherum> did you eat in the end?

<Marcooo> I haven't drank water since I ingested 4 hours ago

<Marcooo> Nah

<Marcooo> My bowl of food got cold

<sconezy> you gonna die

<Marcooo> I tasted a potato remember

<sconezy> no water

<sconezy> mofo

<Marcooo> And I violently spat it out

<Marcooo> Lemme check what was in there

<PJosepherum> i am going to smoke another joint

<PJosepherum> so marcooo, do you describe a god as some mental representation of perhaps your idealised form

<PJosepherum> there is also the notion of a light body

<Marcooo> Coconut oil, FD&C blue no. 1, red no. 40, gelatin, glycerin, mannitol, pharmaceutical ink, polyethylene glycol, povidone, propyl gallate, propylene glycol, sorbitol, sorbitol anhydrides, water

<Marcooo> A god is what you see yourself as

<Marcooo> Your god could be an orb, a humanoid like mine or even a fucking cube

<PJosepherum> "pharmaceutical ink" hahaha

<Marcooo> But gods aren't real

<PJosepherum> right

<Marcooo> I feel as if it'

<Marcooo> It's good to have something to rely on if it goes to shit

<Marcooo> Like I created this being today

<Marcooo> And if I ever feel in need of relaxing in dosing something else, I can just relax and think of that entity

<PJosepherum> are you aware of tulpas?

<xenograft> nice

<PJosepherum> iso went similarly nuts

<Marcooo> Yep

<xenograft> idk

<xenograft> about whatever iso

<xenograft> was doing

<Marcooo> Iso made me go almost insane lol

<PJosepherum> causing a psychotic break in marcooo

<PJosepherum> by acting like a glitchy AI

<xenograft> gdi iso

<Marcooo> I'm fairly sure I called Iso science and myself as Yin Yang

<xenograft> yes'

<xenograft> That is what you did

<Marcooo> I remember most of what I said

<xenograft> Iso claimed to have taken 2cp, pcp, and dph

<Marcooo> Yeah he woke up earlier saying everything was a blur

<Marcooo> Couldn't remember shit

<Marcooo> I never expected that tonight- of all nights- I'd become so fucked

<xenograft> "earlier"

<xenograft> 2cp lasts 12+hrs

<xenograft> peak is like 5-8

<xenograft> or longer

<xenograft> more like

<xenograft> 8+

<xenograft> if he took 2cp

<PJosepherum> exactly xeno, suspicious

<Marcooo> I'm happy I didn't get visuals tonight. I'm sure I would've ended up hurting myself

<Marcooo> PJ, do you have the history of up when I ingested? If so I'd like to have it.

<PJosephum> why do you think so marcoo? dxm visuals are simple, dim, geometric and vast

<Marcooo> Not hurt myself that way, but I was having such a hard time with coping with what was going on I don't think visuals would have helped at that point
